It gives a wonderful insight to the power, strength and determination it takes to fight cancer. I became a cheerleader as I read this book wanting to reach out and yell..."Go David... keep fighting the good fight... you inspire us all !!!"... every page is filled with such passion for life, family and goals... it is inspirational and uplifting. For someone to face so much and come out so positive, motivated and grounded is astonishing. Thank you for writing about a very personal experience, it gives perspective to how we need to appreciate every moment and always look for the best of every situation.1 of 1 people found the following review helpful. I have been reading a lot of motivational books lately ...By Carolyn JeanI have been reading a lot of motivational books lately mostly because I am focused on personal development and breaking through my anxiety. Nothing has touched me quite the way this book has. Seeing this young man's spirit and lust for life through one of the most physically and emotionally challenging experiences one can go through has reenergised my spirit. I don't know how to get the strength David manages to access in himself everyday but I'm sure going to try. I'm about half way done with this book and can't wait to dive in again later for some much needed inspiration. For anyone who struggles with staying focused, and motivated, I promise this book will change you!1 of 1 people found the following review helpful. David George was an established lumberjack, cage-fighting promoter, and mixed martial arts matchmaker thriving on what life had to offer. In 2011 the reality hit TV show Survivor called and presented him with a personal invite to California. The invitation, however, was put on hold after he received an unexpected phone call forty-eight hours later. David decided to flip the script as he took the idea of "Survivor" into his own hands while spinning out of control physically and emotionally. Strapped with a GoPro Hero and Nikon camera, he began documenting his life, which resulted in 258 days of filming and over 6,500 photographs. The plan was to tell and show a true story about staying positive in the face of uncertainty. The goal was to make an art project out of real-life experiences and expose to the world why 2012 was THE YEAR IT ALL MADE SENSE.
